

Antifade Solution for Immunofluorescent Microscopy (Part AF-1)

Directions:

1. Apply antifade solution to slide using a pasteur pipette.
2. Overlay the slide with a cover slip making sure bubbles are not present. Do not move slide-coverslip assembly.
3. Store slide in the dark at 4°C.

Safety. Harmful, avoid contact. Wear gloves and eye protection.

Storage: 4°C

Shipping: Shipped at ambient temperature. Store at 4°C on arrival.
